

OLARE LEARNING INSTITUTE

PREPARE. EVOLVE. LEAD.

A SHORT PROSPECTUS

ABOUT US

We are an organisation established to provide online and virtual professional education and ancillary services. Our vision emanates from the need for affordable training that can provide individuals leverage in switching careers or advancing to a higher professional level.

Our programmes and courses are primarily rooted in the Information Technology sector with the aim of propelling knowledge and competence with a global perspective.

VALUES

VISION

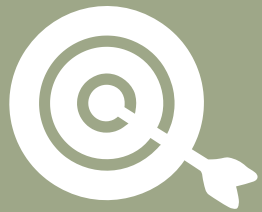

To be a foremost provider of virtual training.

MISSION

To equip individuals with knowledge to the highest standard

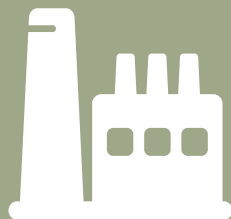

WHAT WE DO

Olare Learning Institute provides virtual training and e-learning education solutions to individuals and corporate organisations.

Our vision is **to equip individuals with knowledge to the highest standard**, with a focus on Information Technology (IT).

Although headquartered in England, we serve customers on different continents.

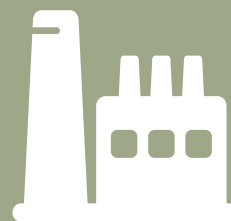

BECOME A BUSINESS ANALYST

The world is fast-changing and technology has become the pivot of such change. Learning IT related courses helps one to stay savvy and provides opportunities for employment, business improvement, communications, and career growth.

Business Analysis, as an IT-related discipline, is a fast-growing function that cuts across sectors. Essentially, A Business Analyst functions as a bridge between an organisations' business needs and technical (IT) solutions, translating complex information into clear, data-driven recommendations for improving products, services and operations, thus improving efficiency and profitability.

It is a senior job role with over 5,000 vacancies posted globally every month, and an average pay of around £60,000 per annum (itjobswatch.co.uk). It is also one of the few IT-related business roles with significant job offerings for remote work (work from home). Other related roles include IT Project Manager and Consultants.

Accreditation

The British Computer Society, BCS, is the UK's Chartered Institute for IT and one of the world's leading professional bodies for Information Technology. Established by a Royal Charter, its professional certificates are respected worldwide with over 70,000 members in 150 countries and cutting across sectors.

Olare Learning Institute is a proud partner and Accredited Training Provider of BCS courses. Olare Learning Institute currently meets the approved standards and requirements set by the BCS for training on IT related courses, thereby ensuring the highest quality and integrity of the process.

Become a Certified Business Analyst

Olare Learning Institute offers training to acquire the BCS Business Analysis Foundation Certification which unlocks many opportunities for employment, entrepreneurship, and personal development.

The course is designed to run for **3 months** but can be extended by the learner, allowing flexibility such that the learner's personal commitments are not impacted.

Benefits of taking the course

- Learn at your pace.
- Flexible payment option.
- Three Certificates (Completion, BCS Course Certificate, & BCS Membership).
- Access to career support.
- High, above market employability.

COST OF THE BCS FOUNDATION CERTIFICATION COURSE

£1,195 (includes all training materials, BCS exam fee, Membership, all electronic certificates).
